WASHINGTON, *March 8, 1826.*

To the House of Representatives of the United States.

IN compliance with the resolution of the House of Representatives, of the 10th ultimo, requesting information relating to the proceedings of the joint commission of indemnities, due under the award of the Emperor of Russia, for slaves, and other private property, carried away by the British forces, in violation of the treaty of Ghent, I transmit, herewith, a report from the Secretary of State, and documents containing the information desired by the resolution.

JOHN QUINCY ADAMS.

DEPARTMENT OF STATE,

Washington, March 7, 1826.

The Secretary of State, to whom has been referred, by the President, the resolution of the House of Representatives, of the 10th February, 1826, requesting certain information therein described, in relation to the mixed American and British commission, respecting the indemnity due, under the award of the Emperor of Russia, for slaves and other property, transported by the British forces, in violation of the treaty of Ghent, has the honor to submit the following report :

1. A copy of the list of slaves and other private property carried away, which has been submitted to the commissioners, together with a statement of the amount of the several claims, as far as it is practicable to prepare such a statement.

2. That no claim has been finally acted upon and allowed by the commissioners.

3. That none has been finally rejected; and all yet remain to be determined.

4. That "the causes which have delayed the complete adjustment of those claims," are, first, the time which was consumed in procuring the necessary testimony to establish their amount and validity; and, secondly, disagreement in opinion between the American and British commissioners in the execution of the commission. One of the questions on which they disagree, (that of interest,) applies to every claim for indemnity which is presented to the Board. Another extends to all, or nearly all, of the slaves belonging to citizens of Louisiana, for the loss of which they claim to be indemnified. These disagreements occurred in the course of the last spring. By the first article of the convention, concluded and signed at St. Petersburg, in June, 1822, under the mediation of the late Emperor of Russia, provision is made for the appointment of two arbitrators, as well as of two commissioners, for the purpose of ascertaining and determining the amount of indemnification which may be due to citizens of the United States, under the decision of his Imperial Majesty. And, by the fifth article of the same convention, it is stipulated, that, "In the event of the two commissioners not agreeing in any particular case under examination, or of their disagreement upon any question which may result from the stipulations of this convention, then, and in that case, they shall draw, by lot, the name of one of the two arbitrators, who, after having given due consideration to the matter contested, shall consult with the commissioners; and a final decision shall be given conformably to the opinion of the majority of the two commissioners, and of the arbitrator so drawn by lot. The American commissioner has offered, on his part, to give effect to that article, in the several cases in which the two commissioners have disagreed, by proceeding to designate one of the

arbitrators, in the mode prescribed; but the British commissioner has declined to concur in the selection of an arbitrator, upon the ground taken by him, that the cases on which the commissioners differ in their judgment are not comprehended in the decision of the Emperor of Russia, and the terms of the convention. This ground being deemed wholly inadmissible, instructions adapted to the circumstances of the commission were given, during the last spring, to the Minister of the United States at the court of London, to bring the subject before the British Government. A negotiation was accordingly opened, as soon as it was practicable; but, at the date of the last despatches from Mr. King. (the 25th day of December, 1825,) it was not brought to a close; and it is now submitted to the President, whether the progress which had been then made in it, be such as to admit of any other notice of the negotiation than that which is now respectfully presented.

With respect to the inquiry, "at what period said commission will probably terminate," no satisfactory answer can be given. The commission does not depend upon the sole will of one party; but upon that of two. Its progress is now obstructed by the nonconcurrence of the two commissioners. That obstacle to the execution of the business, and the consequent termination of the commission, can only be removed by a change of opinion of one of the commissioners, or by the American or British Government operating upon its commissioner. One of the objects of the negotiation at London, is to remove that obstacle; and when that negotiation, the precise duration of which cannot be anticipated, is brought to a conclusion, some probable estimate may be made of the subsequent continuation of the commission. The hope is indulged, that the issue of that negotiation may be known here before the adjournment of Congress. All which is respectfully submitted.

H. CLAY.
